Five-star treatment
for your heart.
And you.™

THE HEART HOSPITAL Baylor Plano

is the first and only freestanding, full-service hospital in this region dedicated solely to heart and vascular health care. Today the hospital is a \$134 million, 116-bed facility.

THE HEART HOSPITAL provides inpatient and outpatient care, including diagnostic, interventional, surgical, and rehabilitation services, and wellness and prevention support. The hospital focuses on delivering safe, quality, compassionate health care.

The distinctive interior and plentiful amenities may remind you more of a luxury hotel than a hospital. As you look around your spacious, private suite you'll realize you are somewhere special. Suites can even be converted into intensive care unit (ICU) environments if necessary. Family and friends may visit you as their schedules permit. When you are ready for breakfast, lunch or dinner, you and your visitors may select from a personalized menu that complies with all dietary restrictions your physician has noted. Your meals will be presented on fine white china by a tuxedo-attired server. Additional amenities include a wireless environment for communications needs.

The Heart Rock Café is located on the first floor and offers tempting breakfast and lunch choices. The Plano Parkway & Gift Shop offers Starbucks® coffee, delicious food and beverage options, and various gift items. The third floor offers a lovely terrace on which you may relax. Concierge staff will gladly answer your questions about general hospital services. Guests and visitors may also enjoy complimentary valet parking or park themselves in the multi-story, covered parking facility adjacent to the hospital. The entire hospital campus is smoke-free. If you have comments to share about any aspect of our hospital, please email them to TTHBPSuggestions@baylorhealth.edu.
